

SOFTWARE FOR TRAINING ORGANIZATIONS

From signed quote, to the audit file.

Certeef connects your sales, your trainings, your e-learning, your billing and your Qualiopi compliance on a single flow. No re-entry, no parallel spreadsheet, no surprise on audit day.

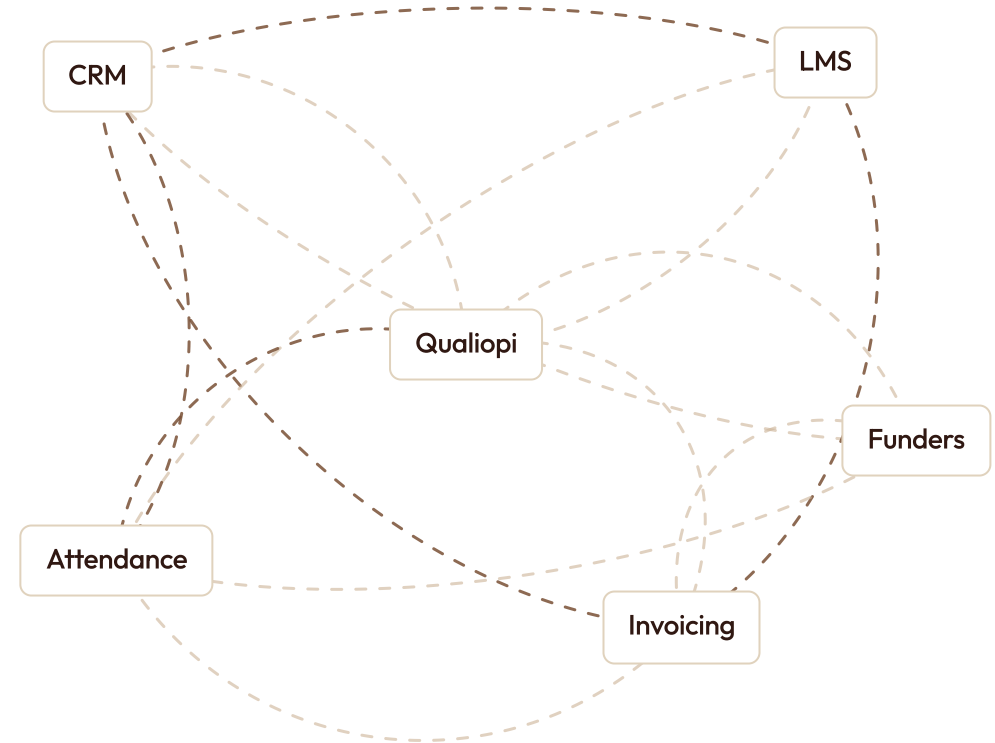

A CERTEEF PRESENTATION

WITHOUT CERTEEF

Running a training organization means juggling six tools.

A CRM here, an LMS there, a spreadsheet for funders, another for Qualiopi. Nothing talks to anything, and everything gets re-entered.

The audit is never a status check. It's a three-week reconstruction.

01

Six tools, no source of truth.

The same data is entered three times, and nobody knows which copy is authoritative.

02

Compliance lives apart from your activity.

Your evidence sits in Drives and inboxes while your trainings run.

03

Quality-manager time goes to retyping.

Retyping dates, chasing colleagues, hunting for PDFs from one tool to the next.

WITH CERTEEF

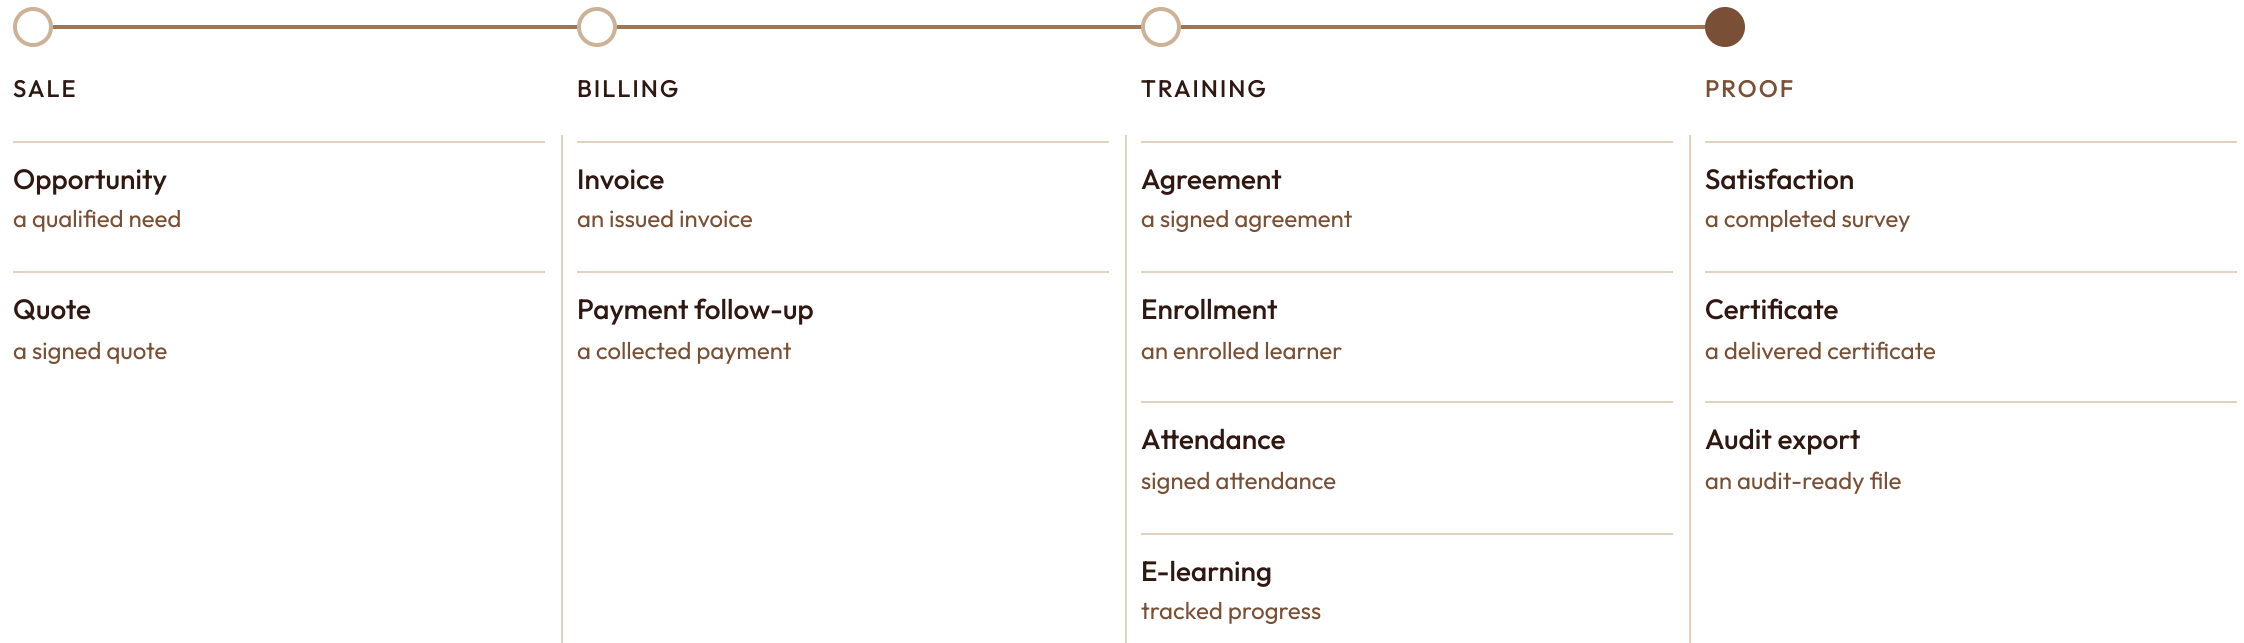

One single chain, from sale to proof.

Each step reuses the data from the one before. A won opportunity becomes a quote, the quote becomes an enrollment, the session feeds the audit evidence. With no re-entry.

Four phases, one continuous thread.

The real order of your activity, tracked end to end: every daily action feeds the next automatically.

Eleven modules, four pillars, one product.

Everything a training organization runs day to day, brought together and connected end to end. Every module feeds your compliance automatically.

Sales management

From first contact to signed quote.

CRM & opportunities

Quotes & invoices

Training management

Your trainings, compliant and up to date.

Trainings & sessions

E-learning & SCORM

Trainers

Administrative management

Learners, signatures and reminders, no re-entry.

Learners & companies

E-signature

Automated reminders

Quality & compliance

Your Qualiopi file, in real time.

Qualiopi compliance

Satisfaction & surveys

Continuous improvement

Your audit evidence builds itself.

You no longer prepare the audit: by simply working in Certeeef, you already have it.

Your trainings, always up to date.

Every training carries its program, its mandatory documents and its sessions. Attendance tracked, ready to show.

Your evidence, filed and findable.

Drag and drop a certificate, a program, a handbook. Certeeef links it to the right indicator and keeps the history.

One action, one owner, one deadline.

Complaints, audit gaps, learner feedback: every corrective action is assigned, tracked, reminded and closed.

An audit-ready file, in one click.

Export structured by indicator, automatic table of contents, evidence attached. Your auditor finds it without asking you.

7 criteria, 32 indicators, in real time.

The National Quality Framework dashboard, fed by your real data. Seven indicators are computed automatically, the others attested in a few clicks.

1 Public information

2 Identifying objectives

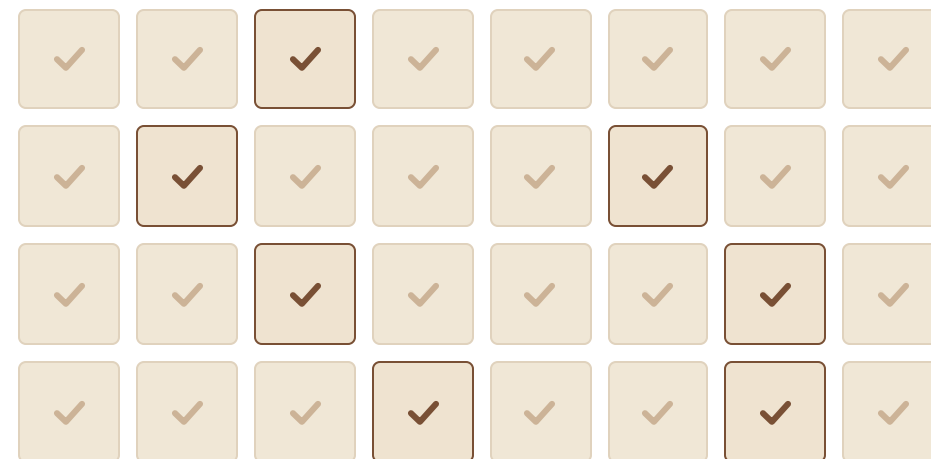

3 Adapting to audiences

4 Pedagogical means

5 Staff qualification

6 Embedding in the ecosystem

7 Feedback and improvement

You see the state of your compliance continuously, not once a year.

The same day, seen from both sides.

○ THE USUAL STACK

Six subscriptions, six logins, six exports.

Data re-entered from one tool to the next.

Evidence scattered across Drives and inboxes.

The audit rebuilt by hand, over three weeks.

● WITH CERTEEF

One product, one flow, one invoice.

Each step reuses the data from the one before.

Each piece of evidence tied to its indicator.

The audit file exported in one click, up to date.

PRICING

An honest grid, indexed to your learners.

Four plans, from independent trainer to multi-entity network. Beyond 3,000 learners, on quote. Annual: two months free.

Solo 100 LEARNERS 49 € / MONTH EXCL. VAT 490 € / YEAR EXCL. VAT	Team 350 LEARNERS 99 € / MONTH EXCL. VAT 990 € / YEAR EXCL. VAT	RECOMMENDED Grow 1000 LEARNERS 199 € / MONTH EXCL. VAT 1990 € / YEAR EXCL. VAT	Scale 3000 LEARNERS 399 € / MONTH EXCL. VAT 3990 € / YEAR EXCL. VAT
--	--	---	--
